

SKILLS

Backend

- Java 17+
- Spring Boot
- Spring Data JPA
- Spring Security
- REST API
- OpenAPI

Cloud (AWS)

- Lambda
- API Gateway
- DynamoDB
- SQS
- SNS
- S3
- RDS
- Cognito
- IAM
- CloudFront

DevOps & Arch

- Microservices
- CI/CD
- Docker
- Kubernetes
- HELM
- RabbitMQ
- KubeRocketCI
- AWS Syndicate

Practices

- Agile/Scrum
- Jira
- TDD (JUnit/Mockito)
- Code Review
- GenAI-Assisted Dev

Databases

- PostgreSQL
- MySQL
- MongoDB
- Hibernate / JPA

EXPERIENCE

Java Backend Developer

July 2025 - Present

EPAM Systems (Campus)

Project-Based Training Stage

Participated in a production-simulated Agile/Scrum team developing a scalable Restaurant Management Application.

- Migrated architecture from AWS Serverless (Lambda, SQS, DynamoDB) to a Kubernetes-native microservices environment (HELM, RabbitMQ, MongoDB).
- Built core REST APIs using Java, Spring Boot and OpenAPI specifications.
- Set up fully automated CI/CD pipelines using KubeRocketCI and integrated SonarQube for code quality.
- Leveraged Generative AI tools (GitHub Copilot) for automated unit/API testing and code refactoring.

March 2026 - Present

Advanced Cloud & Serverless Stage

- Developed end-to-end serverless applications using AWS Lambda, API Gateway, AppSync, and S3.
- Configured event-driven pipelines, securing APIs with Amazon Cognito and managing IAM policies.
- Containerized Spring Boot microservices with Docker and deployed to AWS.

Late 2025 - March 2026

Foundational Training Stage

Successfully completed a rigorous independent learning track focused on Java Core, Spring Framework, PostgreSQL, and Hibernate. Passed strict technical checkpoints and Code Reviews by Middle Engineers.

July 2025 - Late 2025

EDUCATION

Software Engineering , Bachelor's degree

2022 – 2025

Astana IT University
